

CLASSROOM: MECOMS™ TECHNICAL OVERVIEW

Introduction

The goal of this training is to give the trainees a good technical overview of the MECOMS™ frameworks.

Effective technical instruction must be highly varied and interactive to keep attention levels high, promote teamwork between the students and instructor, and solidify knowledge through hands-on learning. MECOMS™ University Training provides instruction to meet every learning need: (Intensive group instruction, one-to-one instruction attention, Hands-on labs, question and answer drills, Independent study)

On the last day of this training, the trainees will be challenged to show their knowledge in a certification exam.

Summary

MECOMS™ University

- > Classroom training
- > Official certification
- > Structured knowledge transfer

MECOMS™ Overview Training

- > Introduction
- > MECOMS™ Billing Function
- > MECOMS™ properties
- > MECOMS™ Import Framework
- > MECOMS™ journals
- > MECOMS™ Time Slicing
- > MECOMS™ Process Logging
- > Process Workflow Framework (PWF)
- > Smart Data Application Server (SDAS)

Certification

MECOMS™ Technical Overview certification (MTO)

Objective

At the end of the training the trainee will be able to:

- > Start implementing the covered MECOMS™ framework on technical level.
- > Participate the MECOMS™ Technical Overview certification (MTO) certification exam.
- > Start the MECOMS™ Advanced Trainings

Target Audience

This training is for trainees who have technical experience with MECOMS™ and knowledge of the Dynamics AX 2012 development.

Duration

The duration for the Technical MECOMS™ Overview training week is 3 days between working hours going from 09:00 until 17:00, and it is typically given from Monday to Wednesday. A 1-hour lunch will be foreseen. The last ½ day will be used for the certification exam.

Prerequisites

Technical experience with MECOMS™ is a plus, however if one of the following requirements is met you can attend this course:

- > Certified in MECOMS™ Technical for AX (MTAX)
- > Experience in Dynamics AX

Training frequency scheduling

The recurrence for the Technical MECOMS™ Overview is once per month on-site at the Ferranti Computer Systems headquarters. Training on-site at the client is depending on the availability of the Trainers. The course dates are available on the MECOMS™ Portal: <http://portal.mecoms.com>.

Conditions

A minimum of 4 trainees is required to schedule and confirm the training. The maximum amount of trainees per training is 8.

Prices

Training at Ferranti Computer Systems Headquarter (Antwerp)
1.950€ per person

Training on-site at Client

9.750€ per training (minimum 4/maximum 8 trainees)
Hotel and travel expenses for the trainer

Contact

The course dates and course materials are available on the MECOMS™ Portal: <http://www.mecoms.com/mecoms-portal>. Please contact training@mecoms.com to subscribe for the MECOMS™ Technical Overview Training.
